

RESIDENTIAL RENTAL/RE-SALE INSPECTION REQUIREMENTS

Ordinance 11-207 Inspection Procedure:

- A. Each dwelling unit must have a smoke detector installed on each floor level and in the bedroom area(s).
- B. Each room used for sleeping purposes must have a smoke detector installed.
- C. Each dwelling unit must have a carbon monoxide detector installed.
- D. An existing acceptable 60 ampere service, or a minimum 100 ampere three-wire electric service, must be installed for the dwelling.
- E. All kitchen countertop receptacles and bathroom receptacles must be ground fault circuit interrupter (GFCI) protected.
- F. All sidewalks and curbs must be in good repair, free of large cracks (covering more than 50 percent of surface area or greater than a ¼ inch in width) and crevices, missing bricks and tripping hazards (greater than ½ inch), and in compliance with the Borough's sidewalk specifications.
- G. The property must be supplied with clearly identifiable numbers (minimum of 4 inches tall) outside the property, in clear view of the street, designating the street number of the property.
- H. The property must not have any illegal sewer connections, as defined under the Borough's applicable current sewer inspection policies.
- I. When conditions warrant and at the sole discretion of the Code Enforcement Officer, the inspection may include other standards of the UCC, the current ICC Property Maintenance Code, and all other applicable housing, building, plumbing, electrical, safety or fire prevention ordinances or regulations relating to the rental unit or residential property.

(Ord. 205, 10/5/2009, section 7)
